SUMMARY

- Full Stack Developer who owns products end to end — from Firebase-backed Node.js APIs and third-party integrations through to React 19 web apps shipped to Android via Capacitor.
- Comfortable across the stack — REST API design, payment and practical AI integration.

EXPERIENCE

Full Stack Developer

JMKC GROUP

Dec 2025 - Present Pune, Maharashtra

[Swachetna Foundation](#) — swachetna.org

Production NGO Donation & Content Management Platform

- Sole developer of the entire platform**, independently designing and developing the frontend, backend integration, donation flow, content management and deployment.
- Built a responsive web platform** with a modern frontend architecture, integrating **Strapi CMS** as the backend for managing website content, media, donation information and dynamic sections.
- Implemented the complete online donation flow using Razorpay**, including payment integration, transaction handling and secure payment verification for donor contributions.
- Developed REST API integrations** between the frontend and Strapi backend to dynamically fetch and manage website content, donor information and media assets.
- Integrated secure media management through Strapi**, enabling administrators to upload, manage and update images and other website content without modifying frontend code.
- Handled production deployment and domain configuration**, including frontend hosting, backend configuration, environment variables, DNS/domain setup and website deployment.

Technology Stack: Next.js, React, JavaScript, Strapi, Node.js, REST APIs, PostgreSQL, Razorpay, Tailwind CSS, Vercel, cPanel

Full Stack Website & Business Management Platform

- Developed the platform end-to-end** using Next.js, React, Node.js, Express.js and PostgreSQL.
- Built RESTful APIs and authentication workflows**, handling business logic, user access and data management.
- Designed quotation-to-invoice workflow** with quotation acceptance, invoice generation and integrated payment options.
- Integrated Strapi CMS** for dynamic content and media management.
- Implemented payment and email workflows** for transactions, quotations, invoices and customer communication.

Technology Stack: Next.js, React, JavaScript, Node.js, Express.js, Strapi, PostgreSQL, REST APIs, Tailwind CSS, Git, GitHub

CORE STRENGTHS

- End-to-end product Development
- REST API design & Integration
- Payments Gateway & webhooks
- Authrntication & Authorization
- Database Design & Management
- CMS & Third-party Integration
- Production Deployment & Hosting
- Git & Github Version Control

DOMAIN EXPERTISE

- NGO & Donation Platforms
- Business Management Systems
- Payments & Online Transactions
- CMS & Content Management
- Web Application Development
- API & Third-party Integrations
- Customer & User Management

AREA OF EXPERTISE

- Web Applications
- Full Stack Development
- REST APIs & Webhooks
- Responsive UI Development
- Database Management

PLATFORMS & CLOUD

Firebase	Advanced
Node.js / Express	Advanced
React / TypeScript	Advanced
AWS S3 / Backblaze B2	Proficient
Render / Vercel	Proficient

EDUCATION

B.E. Computer Science & Engineering
[JSPM'S Bhivrabai Sawant Institute of Technology & Research](#)
 2022 - 2026

LANGUAGES

English | Hindi | Marathi

FUNCTIONAL / TECHNICAL SKILLS

- **Programming Languages** : JavaScript, TypeScript Java, C++ (Arduino)
- **Frontend** : React 19, Tailwind CSS, shadcn/ui, Vite
- **Backend** : Node.js, Express, REST API design, JWT, webhooks
- **Databases & Storage** : Firebase Firestore, PostgreSQL, MySQL
- **AI / ML** : OpenAI API (vision, speech-to-text , tool calling), TensorFlow/Keras, scikit-learn
- **Integrations** : Cashfree Payments, WhatsApp Business API,Google Maps, Nodemailer
- **Cloud & Deployment** : Firebase (Auth, Admin SDK), Render, Vercel
- **Tools** : Git, GitHub, Postman, Appwrite.

ACHIEVEMENTS

- **90 Percentile in Advance Java Full Stack Training(AJFT)(2025)**

CERTIFICATIONS

- **Advance Java Full Stack**
